know we
are good!**

Stress free moving
partner for a trouble-free move!

New Job - New Home - New Life? Who wouldn't wish a new start to be a relaxing experience?

Normally moving creates a lot of work. As well as the actual transport of your worldly possessions from A to B, different preparations must also be made. In your new home everything should be as easily accessible as it was in your old place! One who doesn't want to take on too much needs a strong partner, a professional, who knows what's involved -one who makes it easy for it's cusmers!

Regardless whether you are moving within Germany, Europe or anywhere in the world if it's your household goods, project or special moves- the moving company Sander is your partner for a worry free move!

Price advantage

Cost reduction through qualified advice

Even during the advice stage, Sander shows it's special qualities.

This helps to considerably reduce costs for every contract from a simple move to a "full service" relocation. Sander adjusts itself to your individual needs. Our advice is nonbinding. The situation will be carefully viewed on site so that you as the customer know how much you can save by your own rendered services. Whether you are moving furniture inland or overseas we will always find you both the most organized and economic solution.

Every Sander's estimate shows the anticipated costs in a clear and concise manner. In this way you have a secure overview and a real decisionmaking asset before you grant a contract.

Qualified

All round service:
sanitation, water and electrical installation.

Before the actual move, packing plays a large part.

Sander employs only professional packers who are continually being schooled, particularly in glass and porcelain packing. A " Family Heirloom " simply cannot be replaced should it be broken or cracked. Sander's specially trained packers are particularly careful in this case and ensure maximum safety and security. This is more than the best insurance could offer. Also the craftsman service is a special feature of Sander: Well trained, experi-

enced furniture carpenters take care of kitchen measurement, kitchen plans, material purchase (work surfaces, skirting-boards, wall fittings etc.). For water and electrical connections or low voltage lamp installation only specially certified employees who have participated in appropriate seminars are used.

Secure and Dependable

Space for small and large warehousing

Trust your valuable moving goods to experienced hands!

With warehousing space of more than 5000m² Sander offers space for small and large storage. If there is a delay in moving, a short term storage of your household goods is often necessary or if you are moving to a foreign country for professional reasons a long term storage facility for several years is necessary. Whatever your needs are, Sander offers for every case locked, air-conditioned storage spaces in which your complete household goods are numbered and stored. This extra-

gant method guarantees that your complete goods from A-Z are recorded and listed! Here Sander stands for care and dependability.

Leading German furniture companies also appreciate this and give Sander fixed contracts for the delivery, installation and servicing of new furniture.

Comfortable

Well trained personnel for maximum security

As Sander has constantly offered a complete service, naturally customer wishes play the major role.

Everything which needs to be done during a move will be done by professionals. Together with a computer supported logistic and the possibility of temporary storage in our own warehouse , Sander is in the position to complete extraordinary special contracts without problems.

With our carpentry workshop Sander takes care of any necessary work on site, like small repairs on pieces of furniture or desired adjustments to local conditions. The total dismantling and reassembly of your furniture and built in kitchen is completed by our own experienced carpenters.

...Relocations
of the highest level.

... Moves since 1880

In 1880 Cartwright Adam Sander founded our Company

M With a self-built moving wagon he made the step from a trustworthy tradesman to a reliable service company. Today the fifth generation of the family is carrying on in the tradition and in the service to the customer with the sixth generation ready to take over!

We admit to being a medium sized company and place great value in our personal contact with our customers. This allows us to be flexible to complete the large and small contracts in an economic and competent manner. We employ 90 people and maintain 6 moving trucks, 18 moving vans, 6 customer service vehicles and 6 special hoisting cranes.

Our desire for performance and quality will assure the satisfaction of our customers now and in the future.
